CORNERSTONE HOMES OFFERING SMART HOME AND ENERGY WISE PROMOTIONS THROUGH MAY 31

JACKSONVILLE, Florida – CornerStone Homes wants area homebuyers to take advantage of the latest automated home technology and money-saving energy efficient packages available with its *Home Wise, Choose Your Package Event*. For a limited time, the Jacksonville area homebuilder is offering one of two free incentive packages valued at over \$10,000 to any homebuyer building a new CornerStone home.

“Today’s homeowners want and need more flexibility,” said CornerStone Homes Managing Partner Mark Downing. “Homebuyers should have the ability to choose options that are important to them. Our homes have built-in energy efficiency but our Energy Wise features, such as the GE Hybrid Water Heater, perform well above standard building practices. The Home Smart option astounds everyone with its home automation capabilities. It’s unbelievable.”

The CornerStone Energy Wise home lowers the HERS index, an energy efficiency measurement, by nearly half when compared to the average resale home and by nearly one-third of those measured in typical new homes. With Energy Star upgrades

including double insulated vinyl, low-emissivity windows, high efficiency air and moisture infiltration barriers, a GE Hybrid Water Heater, rain sensor irrigation system, programmable thermostats, high-efficiency Cocoon insulation, TechShield radiant barrier sheathing, which can lower the attic temperature by nearly 40 degrees, a variable speed air handler and an independent third-party energy performance test, homeowners can expect to save hundreds of dollars each month and lower their impact on the planet.

For those who crave the latest in cutting-edge home technology, which can also greatly reduce energy consumption, the home builder is offering The CornerStone Homes Smart Home package. This amazing home operates with Control4, a leader in IP-based home automation and control systems. Homeowners control their security system, camera, lighting, programmable wireless thermostats, front door deadbolt, visual and audio systems, receivers and more at the touch of a button. An Apple iPad is also included with every Smart Home package, adding even more convenience to the Control4 system. Using the remote, keypad, Smart Phones or included iPad, homeowners can easily access and change or update the home system from any room in the house or anywhere in the world.

This limited-time *Home Wise, Choose Your Package Event* is offered to homebuyers who build a new CornerStone home through Tuesday, May 31.

The award-winning, quality new home builder, [CornerStone Homes](#), builds energy-efficient homes with outstanding craftsmanship and incomparable customer service. The builder has received accolades and high honors for its excellence in home building, customer satisfaction and community volunteerism. CornerStone Homes is the recipient of the [Grand Laurel Golden Service Award](#) for 2009 and 2010.

A premier new home builder in Jacksonville, CornerStone Homes builds in the finest neighborhoods including Austin Park at Nocatee, Palencia, Payasada, GroveWood at World Golf Village, Kensington, MuraBella, RiverTown, Hunter Oaks in Mandarin, Doctors Inlet Reserve, Eagle Harbor and Eagle Landing in Orange Park, and Rolling Hills. In addition, the homebuilder will build its new homes on privately owned home sites from \$60 per square-foot.

For more information, visit the homebuilder's website at www.MyCornerStoneHomes.com or call (904) 786-7000.
